Hello There!

We're excited that you want to try CO2 Signal.

To get started, take a look at the documentation at docs.co2signal.com

Here is your **personal API token**: a0a53e6a9f4a6497

Please feel free to reply to this email if you have any questions.

We are looking forward to all the nice uses you will make out of our API!

- The Team at CO2 Signal
